## Bite yourself an Alphabet

## And they're both ardent pretzeleers

Back in '73 Grandpa was the pretzel biting champion of Kokono County—and he's still good. He can bite straight through the alphabet without spoiling a single pretzel. Bobby can already make a "B" in a single bite, but he's apt to leave rough edges on his "Q's."

In a statement recently bitten for the press, Grandpa said: "Uneeda Bakers' pretzels are

"Pretzels today are better than ever. Crispier than the kind we had when Grant was president. Crunchier and more brittle than even those of the Garfield-Arthur period. And the salty taste is what I call salty."

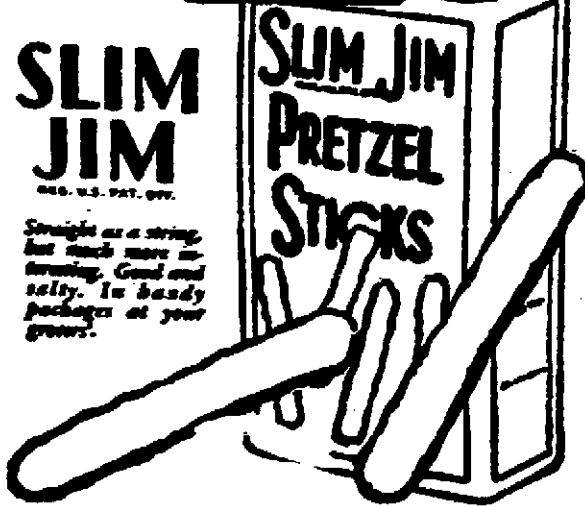

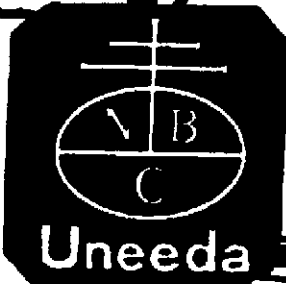

The Golden Age of pretzels is here. People are eating O-So-Gud Pretzels every chance they get. Before you go to bed—great. With ginger ale—fine. With soup, salad or dessert—nothing smackier. For children in between meals.

Easy to digest? Yes. And remember—O-So-Gud is the name. Why so good? Because they're made by the Uneeda Bakers.

## C-SO-GUD PRETZELS

## Rainfall During Month of August

Rainfall stations operated by the Central Hudson Gas and Electric Corporation in cooperation with the U. S. Weather Bureau, show the following figures for the month of August, compared with the normal rainfall for each station for the same month over a period of years:

	Normal	Actual
Darville	2.15	2.92
Osterville	2.15	2.16
East Waliden	2.41	2.15
Pine Bush	2.31	4.56
High Falls	2.29	2.92
Herk Falls	2.40	1.87
Cairo	2.46	2.31

The highest rainfall on record for the month of August was 8.20 at High Falls in 1915.

## SPECIAL MUSIC PROGRAM IN PRESBYTERIAN CHURCH

There will be a program of special music in the First Presbyterian Church Sunday evening at 7:30, this being the first evening service after the summer vacation. In recognition of Kingston's celebration of the centennial of the birth of Abraham Lincoln, one of the anthems will be "To Thee, O Country," by Eichberg, which is given by request.

Miss Merritt will play a group of three organ solos: "The Largo from Dvorak's Symphony 'From the New World,'" "Hymn of Nuns" by Lefebure-Wely and a Mendelssohn number, "Allegro in B Flat." This latter is a posthumous work and not so well known as many others of Mendelssohn's compositions, but is nevertheless very interesting as well as brilliant. Dvorak's "New World" symphony was built on American folk music, an example of a European composer constructing a work on ideas gained from the new world.

A complete program of this service will be announced with the church notices in Saturday's Freeman.

## Cabin of Naturalist Far From the Crowd

John Burroughs, the poet-philosopher, some time in the 80's built a study of bark—a kind of pavilion—in his yard at Riverby, his home on a terrace that overlooked the Hudson river, selecting a point where he could sit at a desk and overlook the valley. There he did much of his reading and writing. He kept his books there.

From year to year the number of those who recognized the power and beauty of his work increased, and as his fame spread, his visitors became more numerous. To be still farther removed from the interruptions of his vineyard and his household, he built with his own hands a cabin in the hills about two miles west of Riverby, and there he did some of his writing, entertaining now and again some distinguished invited guest. He did his own cooking and built his own fires in a chimney constructed with his own hands. He called this place Slabside. Theodore Roosevelt was among the prominent men who visited him there. —Hamlin Garland in the Dearborn Independent.

## MARLBOROUGH

Marlborough, Sept. 8.—Mr. and Mrs. Fred Fowler and Miss Gertrude Chidgey and J. Luchi of Middletown spent Labor Day in New York city.

Mr. and Mrs. Henry Kramer returned to their home in Brooklyn on Wednesday after spending a week at the home of Mr. Kramer's brother, J. H. Kramer.

Sarah Newell spent Labor Day at the home of her aunt, Mrs. Owen Connor in Highland.

Mr. and Mrs. Edward Distler of the Bronx, New York city, called on D. J. Hannigan on Wednesday.

Mrs. George Fowler spent Tuesday in Poughkeepsie.

Miss Adelle Cuniaky returned to Staten Island on Monday after spending her summer vacation with her sister, Mrs. Hugh Lucy.

The Marlborough schools re-opened on Tuesday with a large attendance. In the Marlborough High School teaching staff there were only two changes. Miss Uhle, who last year taught sixth grade, will take the place as fourth grade teacher of Miss Anna Nocton, who will teach this year in New York city and Miss Uhle's place in sixth grade will be filled by a new teacher, Miss Louise Case of Oswego.

John Quimby visited his cousin, Arthur Williams, in Highland last week.

Mrs. W. J. Maddox and children returned home to Washington, D. C., after a five-week visit with her mother, Mrs. J. C. Wygant, and her brother, J. C. Wygant, Jr.

Charles Lockwood of New York spent the week end and holiday at his home here.

Margaret and Elizabeth Schram will return to Flushing on Saturday to be ready for school, which will open the following Monday.

Virginia Downer of Newburgh spent Tuesday at the home of her parents, Mr. and Mrs. E. J. Downer.

Mrs. Phoebe Quinn entertained friends from Brooklyn over the week end.

Miss Mary Casey of Newburgh spent Sunday with her sister, Mrs. M. Berkery.

Miss Margaret McCabe of Highland spent the week end and holiday with her aunt, Mrs. Ella Gallagher.

Mr. and Mrs. P. J. F. Gallagher and family have returned from Syracuse.

The Rev. Herbert Killipder, of the Marlborough Methodist Church, is spending two weeks in Ohio, where he will attend a meeting of the Methodist Conference of the state, of which he was once a member. The conference is to be held in Delaware, Ohio. Over a thousand ministers are expected to be in attendance. The conference opened on Tuesday.

Mr. and Mrs. Percival Byron and family and Mrs. Edwin Knapp of Cornwall visited Dr. and Mrs. W. B. Harris on Tuesday and Wednesday.

The Rev. M. C. Cavell returned home last week after spending several weeks in New York city and Pittston, Penn.

Mrs. A. H. Coutant, Mrs. William

## Dressing Well Isn't a Matter of Luck

If the woman across the street and her debutante sister always look stunning as they leave the house, don't lay it to luck or extravagance either. Their clothes budget is probably no larger than the rest of the women's in the neighborhood. The real reason probably lies in the fact that they carefully study some good fashion magazine and then do their buying at a store which their own knowledge tells them has the style-right things at the right time. Ours is such a store.

## Sesqui Events at Cohoes Saturday

Some With Unfolded Banners Table on Van Schaick Mansion Grounds—Dancing Tableaux Duplets Events—Leading to Surrender of Burgoyne.

Cohoes, Sept. 9.—Tomorrow at 2 p. m. Cohoes will be the scene of a New York State Sesquicentennial celebration which will include unveiling a large bronze State marker on the grounds of the historic Van Schaick Mansion, a historical tableau depicting the first two years of the struggle of the Colonists for independence, resulting in the victory at old Saratoga on September 19, 1777, and a special band concert dedicated to the "Flags of Four Nations" given by Noller's Band of Troy.

The State marker on the Van Schaick Mansion grounds reveals the fact that this place is one of great significance in the annals of American history. It was the headquarters of the Northern Department of the Continental army between those fateful days of August 18 to September 8, 1777, under the leadership of Major-General Philip Schuyler and later under General Horatio Gates. Here was planned the Saratoga campaign which led to the defeat of Burgoyne and won American independence at what is said to be "one of fifteen decisive battles of the world." It was at the Van Schaick Mansion that General Gates on August 19, 1777, assumed command of the American forces. From this place on August 15, General Benedict Arnold and his force marched to relieve Fort Stanwix.

Burgoyne Entertained. Here after the surrender of Burgoyne at old Saratoga on October 17, were entertained General John Burgoyne and his staff. Under the roof of this old house, now the home of Mr. and Mrs. Karl Ohman, have been entertained such luminaries as Governor George Clinton, General John Stark, Colonel Daniel Morgan, Colonel Peter Gansevoort, General Benjamin Lincoln, General Ebenezer Learned, General Enoch Poor and Colonel Tadeusz Kosciuszko, engineer of the fortifications on People's Island and at Bemis Heights on the old Saratoga battlefield.

The program at 2 o'clock will begin with music by Noller's Band followed by the unveiling of the Van Schaick marker by Miss Edith Madeleine White. The invocation is by the Rev. Victor J. Blekink. Following this will be an address by Judge Ed-

gar B. Nichols, "Van Schaick Island, the Van Schaick Mansion and Their Connections with the Campaign and Defeat of General John Burgoyne." The Rev. Valentine Gierlacki will give an address, "Colonel Tadeusz Kosciuszko." The dedication will be rendered by the Rev. Jules J. Burdick.

### City of Four Flags.

Cohoes tomorrow will be a "city of four flags"—Dutch, French, English, and American, representative of four periods of dominion from 1609 to the present. The flag of Holland will be represented by Miss Eleanor McCauley, that of France by Miss Helen McCauley, that of England by Miss Dorothy Mildred Beck, and the Stars and Stripes by Miss Florence Theresa Boyle. Noller's band will render during this part of the program, the respective national anthems, "Wilhelmus Van Nassauwen," "La Marseillaise," "God Save the King" and the "Star Spangled Banner."

The dancing tableau is made up of seven parts. Number one represents the spirit of American independence and "Mother Country" as played by Miss Lillian Ruhl. Number two is expressive of the first two years of discouragement when the American cause was at low ebb. Solists of this scene are the Misses Rita and Muriel Larkins. Number three is a colorful dance representing the advance of the British army characterized by groups of scarlet clad participants. Part four shows the arrival of the Continental Army on Van Schaick's Island August 14, 1777. Part five is the Council of War when the Saratoga campaign was planned and various parts are interpreted by the following dancers: The Misses Catherine McGriever, Shirley Elliott, Eva Bourdeau and Alberta Allen.

### Those in Charge.

The chairman of the Cohoes area of the New York State Sesquicentennial Committee is Hugh P. Graham. He has been assisted in the preparation of tomorrow's sesqui by the Cohoes Historical Society of which Harry M. Sweet is honorary president. W. Bart Cook, Jr., president, Karl Ohman, vice president, and Edgar B. Nichols, treasurer. Mr. Graham is secretary of this organization. Miss Shirley Elliott is in charge of the dancing. Mrs. Frank Elliott designed the costumes and F. Sylvester Ruth of Troy designed the tableau and marker.

### Sesquicentennial Service AT HOLY CROSS CHURCH

In connection with the Sesquicentennial celebration the high Mass at Holy Cross Episcopal Church Sunday morning at 10:30 will be in the nature of a Mass of thanksgiving. An historical address will be given by the rector of the parish, the Rev. Gregory Mabry, and special music for the occasion will be rendered by the choir which will have returned after vacation. The general public is invited.

### Eye Hops and Skips Along Printed Page

When the eye runs along a line of print in a book, it does not travel smoothly from left to right of the page, but jumps from time to time, taking in a whole word or, perhaps, a few words at a time, and then jumping on to a fresh group, says My Magazine.

If the eyeball is illuminated with a ray of light, which it reflects back again on to a moving photographic plate, the photograph will show exactly, in the form of a number of little stripes, or bands, what movements the eye has made.

These photographs, made with a special instrument used at the psychology laboratories at Stanford university, have enabled those studying the languages to make a very fascinating discovery. This is, that the eye finds it much more comfortable to read from the bottom of the page to the top than from the left to the right, and so we find that the ancient Chinese, some of the earliest people to invent writing, had the wonderful sense to adopt the most suitable style of writing, for they started at the bottom of the page and wrote upwards.

### Picture of 100,000 Stars

A new camera lens has been developed by Prof. Frank Ross of the Yerkes observatory, through which 100,000 stars may be photographed on a single plate, says Capper's Weekly. The lens exposes 24 degrees of the sky on one plate and sees far more than all the human eyes in the world can see.

Fireworks will be held at Kingston Point Saturday evening, September 10, 1927, by Saint Mary's Benevolent Society. There will be Mass Sunday at Society Hall at 9 a. m. and parade after Mass to Broadway to Ferry street and back. Refreshments on sale. All are welcome. Benjamin Coniglio, president of committee.—Advertisement.

## Legion Recovered Million for Men

National Rehabilitation Committee's Efforts Resulted in Payment of \$1,679,643 to World War Veterans.

Paris, Sept. 8.—A total of \$1,679,643 was recovered by the National Rehabilitation Committee of the American Legion for former service men of the United States, through presentation of their cases to the United States Veterans' Bureau and in other ways, in the period between August 16, 1926, and last June 30, the committee declares in a report compiled for submission to the annual convention of the Legion at Paris and made public today.

The money was recovered, the committee reports, chiefly in adjusted compensation, insurance, disability compensation, discharge bonuses, liberty bonds and pensions. In the month before last July 1, the last date for reinstatement and conversion of government insurance, the committee effected reinstatements and conversions involving \$2,392,500 in insurance.

The Legion's successful effort to save lives of World War veterans suffering from tuberculosis by winning them compensation of \$50 a month is expected to bring to this class of disabled a total of \$600,000, the report says. In presenting the matter to congress it was estimated that 26,000 veterans would be eligible to such help, but less than a year after passage of the legislation 22,181 awards had been made, and thousands are expected to follow.

Four states have set up full time service agencies within the year, the committee relates, bringing to 22 the number of states with official instrumentalities for the assistance of former service men.

### MEETING OF ULSTER COUNTY POMONA GRANGE

The regular quarterly meeting of Ulster County Pomona Grange was held at the Odd Fellows Hall in Ulster Park on Friday, September 2. The meeting was called to order by Worthy Master H. V. Story. Then the reports were given for the thirteen subordinate granges in the county, telling of their activities in the last quarter. The members were urged to make an earnest effort to join the State Grange which meets in Poughkeepsie next year.

At noon, a delicious dinner was attractively served by a committee of women headed by Mrs. Kate Van Vleet. In the afternoon, seven new members were initiated to Pomona, five of them coming from Ulster Grange, No. 969, the host of Pomona. After all the business of the day was completed, the meeting was turned over to the Worthy Lecturer Barnes for the literary program. The latter consisted, in part, of a reading by Hewitt Osborne, piano solos by Janet Story and Ada Winfield, and a vocal solo by Past Master Leslie Herring accompanied by Ruth DeGraff. The meeting then adjourned to meet again in Lake Katrine in December.

## Charged With Forty Robberies

Chicago, Sept. 9 (A.P.).—William Mitchell, 27 year old department store clerk, who said he never drank, smoked, gambled or went to night clubs, was in jail today, self-identified as the "cat bandit" whose depredations have terrorized the north side for nearly a year.

By day Mitchell was a hard working man, a devoted husband—a "family man" as he expressed it. By night he was the "cat" who preyed entirely upon women, holding them up at the point of a gun, snatching their rings and handbags, and then fleeing into the night.

More than 100 holdups are laid at his door, and as many burglaries. He talked freely to police and said he had no idea of the exact number of robberies he had committed. One of his burglaries was the home of Edward J. L. Lumberman.

When the roundup was over, forty charges of robbery with gun and burglary had been placed against him, and one statutory charge.

Making no effort to conceal the holdups and burglaries, Mitchell made repeated denials of assault in connection with his banditry. He chose women for victims, he said, because they were not as dangerous as men. Invariably he approached them on an unlighted street, robbed them and then fled down an alley, running on to the next street where he had left his automobile.

### Veteran Greets Duke

Having lived in the reign of three British sovereigns, John Peerless, now nearly ninety, of Fitzroy, a veteran of the Crimean and Maori wars, was among those most eager to meet the duke and duchess of York when the royal couple visited Melbourne. Born in Walsley, Kent, soon after the accession of Queen Victoria, Peerless, as a boy, frequently held the duke of Wellington's horse when the hero of Waterloo, riding from Walmer castle into the village, dismounted there. In his early teens Peerless served in the Crimean war as a midshipman on H. M. S. Hannibal. He saw similar service on H. M. S. Iris in the Maori war. Settling later in Wilmamstown, he was attached to the old Victorian navy for a long period. He was presented a medal commemorating the centenary of the death of Nelson.

### Desert Lake Vanishing

One of the most remarkable series of evaporation measurements ever made was the result of a disastrous flood that occurred in the desert region of southern California in the year 1905, says Nature Magazine. The breaking of dams constructed in connection with an irrigation project allowed the water of the Colorado river to flow into a large depression below sea level, known as the Salton sink. By the time the break was closed, at the end of 1905, the flood had formed a lake 475 square miles in extent—the Salton sea. After its principal supply of water was cut off, the lake diminished rapidly in depth and area on account of the great excess of evaporation over the very scanty rainfall.

### Brooms on Wheels

A device that, it is claimed, enables a child to operate a 4 foot broom, usually requiring a strong man's efforts, has been perfected by a San Francisco man, says a writer in Popular Science Monthly. The broom is mounted on two rubber-tired wheels the same height as the broom. Pushing down the handle throws the broom on the wheels and lifts it two or three inches off the floor. Lifting the handle sets the broom down on the floor ready to sweep. The broom is moved easily from one spot to another without lifting it off the floor, and the sweeper can operate it a great deal faster and with much less effort than an ordinary broom.

### Giant Telescope

Through a huge telescope that has been completed after many months of work, astronomers propose a ten-year search about the skies from an observatory in South Africa for the purpose of measuring the known double stars and to hunt for new ones. The lens for the instrument was made in Pittsburgh and cost \$25,000.

## ELEANOR GUNN ON FASHIONS

NEW COLORS, INCLUDING BEE BROWN AND MEXISTO RED, MAKE THESE APPARELS.

New York—Black season brings us, if not actually new tones, new names by which one must learn to call the familiar colors. So far this fall one has become accustomed to shades of bee brown, a warm, rich, dark shade, and of Mexisto red, which is not nearly as brilliant as the one might suppose.

There are, of course, several shades of the new color cast, and deep reds and browns, warm chestnut in character, and a host of lovely tones, including a sunny shade named fairly with pink, a color that many predict will meet with as unanimous approval as *bois de rose*. Yet with all the color, and there is no dearth of it, many elegant women

Black Lace Effectively Combines with Sheer Black Velvet in This Frock with Shoulder Drape, Rhinestone Bowknots Indicate a Bolero Outlined on the Bodice.

approve black, especially when it is offset with a touch of crystal or rhinestone, as is so frequently the case for dresses in which one dines. Tulle is being played up for evening in black as well as colors, and lace, alone or combined with satin or velvet, will appeal to the woman who cherishes the idea of expressing dignity by her clothes. It comes as rather startling news that at least one of the Paris houses showed a few gowns with trains at its premiere. Naturally, these were panels, which, however, deserved being dignified by the name of trains. There is no doubt but that the feeling for longer skirts prevails, although it is noticeable only for evening wear. It is also true that skirts have widened as well. The wide skirt has the unanimous endorsement of the majority of French houses! We are not loath to follow suit.

### Eleanor Gunn Says

New York.—Paris applauds black for the new season, both for day and for night wear.

Skirts have started their downward trend. For evening, some are frankly longer; for day wear, one may as a safe recipe, add two inches.

Velvet and crepe satin are strong favorites.

Many fall coats are belted, and some are quite abbreviated, although not sufficiently to be in the jacket class.

Higher waist-lines are another detail of decided importance.

Mexisto red is a new color, and so is bee brown; and there are many others, including violin blues and pinkish putty tones.

Beading and embroidery have a new lease on life. Steel beading is one of the interesting revivals.

Long chains of topaz, amethyst, and other semi-precious stones are launched in the effort to wean women away from pearls.

The sleeveless short jacket for evening is a Molyneux gesture.

Slim capes, with fitted shoulder lines and fashioned of rich brocade, are also favorably received and bear the Molyneux label.

Lace and velvet have formed an alliance for the betterment of style.

(Copyright, 1927, Metropolitan Newspaper Service, New York.)

### Barred From Card Club

Hungarian women may not enter card clubs, according to a decree recently issued by the minister of the interior.

### Chic Three-Piece Suit Is of Black, White, Red

Intricate but simple is this black, white and red three-piece suit designed for Dorothy Mackaill, the motion picture star. The skirt is of black and white-striped flat crepe. It has a wide black and red band at the hemline. The overblouse is of white satin. The jacket is of black flat crepe. The coat is edged around with two lines of white braid; two buttons draw it tight over the hips.

## The KITCHEN CABINET

(© 1927, Western Newspaper Union.)

What is so rare as a day in June?  
Then, if ever, come perfect days  
And heaven tries earth if it be in tune  
And over her softly her warm ear lays,  
And whether we look or whether we listen  
We hear life murmur or see it gladden.

### SOME GOOD THINGS

Those who like shrimps will enjoy the following very tasty dish:

**Creamed Shrimps a la Mornay.**—Heat one cupful of shrimps (cut up) in one-half cupful of milk, add three tablespoonfuls of butter well blended.

With four tablespoonfuls of flour, add one teaspoonful of Worcestershire sauce, one-half cupful of grated cheese and salt and pepper to season. Beat well until well blended, then add the shrimps. Serve on buttered bread or crackers or in ramekins with crackers.

**Fish Salad.**—Flake the pieces of boiled fish with two forks, season with lemon juice and arrange in a salad bowl that has been rubbed with garlic. Mix with water cress. Peel and boil three large potatoes, drain and mash until light, season with salt, two tablespoonfuls of butter and the yolks of two eggs well beaten with a tablespoonful of vinegar, beating well while adding. Pour this over the fish and serve.

The boiled fish may be prepared as above and served with:

**Russian Salad Dressing.**—Shred four anchovies, freed from oil and freshened in water; add a tablespoonful of prepared mustard, four hard cooked egg yolks and pound to a paste, then press through a sieve. Add to the paste one and one-half cupfuls of mayonnaise dressing; mix the paste in a little of the dressing, then add more until all is well blended. Finish with one-half cupful of smoked salmon cut into thin slices.

**Banana Fluff.**—Cut one-half pound of fresh marshmallows into quarters, using scissors dipped in water to keep them from sticking; add one cupful of heavy cream whipped, one-half cupful of sugar, a teaspoonful of vanilla, a pinch of salt, a cupful of broken nut meats and one cupful of mashed banana. Serve with crushed strawberries on top, or with ice cream or lemon ice.

### Three-Piece Costume Is Choice of Many Women

The three-piece costume plays an increasingly important part in the current mode. It is now the undisputed choice of well-dressed women for practically every daytime occasion, so smart has the frock with its related coat proven.

In the evening, also, the ensemble motif is paramount, formal gowns, as well as the simpler type of chiton dress, being accompanied by either matching wraps, or coats allied to frock underneath by some detail of trimming.

The vogue of the ensemble is due primarily to the trim appearance presented by a costume consisting of dress and coat designed expressly to complement each other. A matching outfit, or at least one with related details on the frock and wrap, is a far more pleasing creation than when the outer garment bears no relation to the gown underneath.

### Reforestation

Two thousand trees are added each year to the forest established several years ago by Cold Brook public school in the town of Russia, Herkimer county, N. Y. School forests are exempt from taxation in New York state, and many schools are acquiring tracts of land to be wooded by pupils.—School Life.

### Maple Sugar

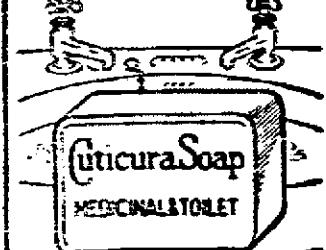

The earliest record of the production of maple sugar was at the time of the Napoleonic wars, when the sugar was produced in Bohemia, and the industry received substantial sums of encouragement from the government of that country. The industry soon died out there, however, and about that time the sugar beet came into prominence. The earliest explorers in this country found the Indians making sugar from sap of the maple tree.

### Acids in Stomach Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try taking aside all digestive aids and instead get from any druggist some Bismuth Magnesia and take a teaspoonful of powder after each meal. Water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismuth Magnesia (in powder or tablet form—Bismuth Magnesia is harmless to the stomach, invigorates to take and is the most efficient form of means for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

### More Startling—Because True

THE latest popular novel may be read with interest—but since the reader knows it is a work of imagination—that the events described never really happened—he forgives them almost as soon as he closes the book.

That is where the startling narratives in True Story Magazine differ from the fiction-maker's chronicles. The story of real life grips the imagination and lingers long in the memory, not only because it is intensely interesting but because it is true.

In the October issue of True Story, for example, there are seventeen gripping, profoundly absorbing features—each one of them a true record of human experience. Your newsdealer can supply you. Get your copy today.

### \$1.50 Watch Saves Life of Worker in Sawmill

Alamosa, Colo.—The life of Walter Swepe, a carpenter, was saved by a \$1.50 watch, when he fell into a rapidly revolving rip-saw.

The saw cut the heavy-cased time-piece, which was in a pocket just over Swepe's heart, neatly in half, and was biting into his flesh when he recovered his balance and leaped back. He has a slight cut and the haired watch as souvenirs of the incident.

### Farmers Should Press Charges

Against Persons Arrested For Stealing Farm Property or For Petty Pilfering of Gardens, Says State Police Inspector Moore.

Ithaca, N. Y., Sept. 9.—Captain Albert B. Moore, State Police Inspector, is advising farmers against leniency in the case of persons arrested for stealing farm property or for petty pilfering of farm gardens and orchards. In many instances, he says, the farmer is rather reluctant to appear in a prosecution, feeling that he may suffer a loss of time or that harm may be done to him by the person against whom he is appearing. "This is a mistaken idea," Capt. Moore points out, "for if in each locality convictions of these thieves are secured and proper publicity given to the convictions, it will result materially in the reduction of losses and will broadcast the fact that the farmer's property is private and not open to public trespass."

This is the season of the year when farm gardens and orchards present a tempting sight to the passing motorist. Sometimes he doesn't pass, but stops and helps himself to a few ripe peaches, or tomatoes, or whatever appeals to him—quite overlooking the fact that he is taking another man's property. Although the amount taken by any one person is negligible, the total annual loss to farmers is something like a million dollars. Last year, in an effort to cut down this loss, the New York State Farm Bureau Federation enlisted the cooperation of the State Troopers in the organization of a vigilance service. A survey made by the state police disclosed the fact that the majority of persons who help themselves, without authority, to vegetables, fruits, etc., are city motorists.

"An effective means of deterring such thieves," says Capt. Moore, "is the posting of vigilance signs at the boundaries of farm property." These signs which were designed and printed by the Farm Bureau Federation for its members, offer a reward for information leading to the arrest and conviction of persons caught stealing or damaging such posted premises—the reward being paid by the Federation. During 1926, the first year of operation of the vigilance service, 265 cases of theft were reported to State Troopers, resulting in 118 arrests. Not all of these were thoughtless city motorists, a good many being common thieves who stole everything they could lay their hands to, from chickens to diamond rings.

To make the vigilance work as successful as possible, Capt. Moore is urging the farmers to give their full cooperation to the state police by observing the following rules: "First," he says, "the farmer should be observant of unusual occurrences in his neighborhood, being careful to make note and preserve the license number of any automobile loitering about his property, the number of passengers therein, the make of the car, and other information which would establish the identity of the persons wanted. Note should also be made of any unusual callers upon the premises, such as buyers of rags, junk, old iron, chickens, etc., as oftentimes a thief, in order to become familiar with the location of the property he wishes to steal, will visit the premises in the daytime on a seemingly legitimate errand."

"Second, when a theft is discovered, there should be immediate notification to the police authorities, as to location of the farm, name of owner, property taken, and approximate time of the theft."

"Third, in the event of a crime of serious importance in the rural districts, great care should be taken to preserve the scene of the crime in its original condition until the arrival of the police. Many times in cases of burglaries, valuable finger prints, foot prints, and other tell-tale evidence left behind by the offender, have been eradicated by the curiosity of the owner and of his friends who are anxious to view the scene of the crime."

### Indian Fishing Methods

The methods used by the Indians in fishing, before the advent of the white man, were quite modern. Starting from the simple device of attaching the bait to the end of a line, the progressive order of fishhooks used by the Indians seems to be as follows: (a) The gorge hook, a spike of bone or wood, sharpened at both ends and fastened at its middle to a line, a device used also for catching birds; (b) a spike set obliquely in the end of a plain shaft; (c) the plain hook; (d) the barbed hook; (e) the barbed hook combined with sinker and lure. This series does not exactly represent stages in invention; the evolution may have been effected by the habits of the different species of fish and their increasing wariness. The materials used for hooks by the Indians were wood, bone, shell, stone and copper. The Mohave employed the recurved spines of certain species of cactus, which are natural hooks.

### Cocoa Should Be "Cacao"

Chocolate is made from the large nutritive seeds of beans of the cacao tree, a small evergreen tree indigenous to tropical America. Formerly all chocolate came from tropical America, but now the Gold Coast, in Africa, is the largest producer of cacao. There is much popular confusion in connection with the words coco, cocoa and cacao.

The original name of the tree was cacao and that form is retained in German, Spanish and French. But in Dr. Samuel Johnson's Dictionary it was spelled cocoa. It probably was an error, but at any rate the spelling now is the accepted form in English. The cacao has no relation to coconut palms. There is also a small shrub that grows in South America called the coco.—Pathfinder Magazine.

## Tagging Major League Bases

(By The Associated Press.)

The New York Yankees used only one victory to clinch the American League championship. Celebrating "Lazzeri day" yesterday, the Huguenots scored their nineteenth consecutive win over the St. Louis Browns, the score being 2-1. Lazzeri struck out in the first inning, with the bases loaded and fanned again in the third, at the Italian's sacrifice fly in the fifth scored Ruth with the winning run.

"Sad Sam" Jones pitched tight ball, holding the Yanks to four hits. He passed Ruth three times and fanned Gehrig twice. Waite Hoyt was in still better form, however, and let the Browns down to three hits, one a home run by Ken Williams.

"Lefty" Grove pitched and butted the Mackmen to a 5-1 win over Detroit. Grove fanned eight and contributed a home run, a single and a sacrifice fly, accounting for three runs. Philadelphia nipped St. Louis and Holloway for nine-inning.

The Boston Red Sox outslugged Cleveland for a 10-5 decision. Tightly hitting by Rothrock and Rogell accounted for the defeat of the Indians.

The Chicago White Sox began their eastern invasion with a 4-3 victory over Washington. The Sox scored enough runs in two innings off their former team-mate, Hollis Thurston. They were held scoreless after the third inning.

Hitting four St. Louis pitchers for 16 hits, the Chicago Cubs climbed back into third place in the National League race. Joe McCarthy's club started its scoring in the second inning and blasted Sherdel and H. Bell out of the box in the sixth. Charlie Root kept his hits scattered and chalked up his twenty-fifth win of the season, the score being 11-7.

Yesterday's victory gave the Browns an even break in the series.

Hack Wilson pounded out two triples, and Schulte, the Cardinals' rookie shortstop, knocked a home run with one man on in the fifth. Only one game was scheduled in the National League. The New York Giants were to open their important series with the Chicagoans today.

### HEAVYWEIGHT BATTLE RESULTS IN A DRAW

New York, Sept. 8 (AP).—The first heavyweight elimination bout leading to Tex Rickard's winter tournament in New York has failed to establish either Paulino Uzcudun or Tom Heeney as a really serious contender. The Basque woodchopper and the champion of New Zealand battled 15 rounds to a draw last night at Madison Square Garden. It was their second meeting. Paulino having been awarded a more or less unpopular decision in the first.

Paulino, the conqueror of Harry Wills, failed to show anything bordering on a knockout punch, and his Australian adversary assimilated everything the Spaniard dealt out and came through with only the ordinary wear and tear of fairly hard battling. In the eighth round Paulino had his man cut about the face. Heeney's right eye was closing. Toward the close Heeney appeared to be the stronger and in the thirteenth and fourteenth Paulino was somewhat unsteady on his feet.

The winner was to be in line for a fight with Jack Sharkey in October. Paulino was regarded as the favorite.

### WARRINGTONS LOST TO CARDINALS

The Kingston Cardinals won from the Warringtons Thursday night at the Barmann diamond, 7-0. Luedtke and Hicks with Fisher behind the bat formed the battery for the losers. The victorious battery was composed of De Credi and Dederick. The Cards challenge the Y. M. C. A. team and the Clermonts.

## ONCE A CHAMP

That wonderful old batter of the days of yore, Ad Wolgast, is pictured as he is today, in the psychopathic ward of a Los Angeles hospital. Old-timers who saw this ring marvel in action will at once note the difference wrought by the years.

## Speaker Big Help to Washington

Tris Speaker, former manager of the Cleveland Indians, now playing center field for the Washingtons, has been a big help in keeping the team prominent in the American league race for the championship.

### Found an Ambition Through Stomach

A story is told how Ty Cobb schemingly got a young member of the Athletics in better condition than he would otherwise have been. It was at Fort Myers, Fla., this spring, and Ty happened to take up with the recruit.

The Peach had seen the youngster put away food at the dinner table and sought in an off-handed way to josh him about it.

"You like the food down here, don't you?" inquired Cobb.

"It's great, ain't it?" answered the kid.

"Well, I'll tell you," said Ty. "If you run around the park five or six times extra every day, you'll have a better appetite and enjoy the food more than ever."

The lad each day, on his own hook, hooped it around the park until his tongue became parched. And Ty had a silent laugh as the recruit found an ambition through his stomach.

## BASEBALL NOTES

The Chicago White Sox have been asked to train next season at Elkhart, Miss.

Pittsburgh fans think that Pie Traynor is easily the most popular player in that league.

Adolfo Luque, Cincinnati Reds' Cuban pitcher, has been sued for divorce on charges of cruelty.

George Whitted, former National league player, coaches at Duke during the baseball season.

Buzz Wetzel, new Athletic hurler, is no youngster in point of years. He is twenty-nine years old.

Harold McKain, Council Bluffs, Waterloo rookie pitcher, has been sold to the Cleveland Indians.

Charlie White has been in baseball for 50 years. He is the first secretary of the New York State league.

The Boston Red Sox have abandoned New Orleans for Atlanta, Ga., as their training camp for next spring.

Despite the fact that the Red Sox are in the cellar, the Boston fans like 'em because the team is hustling always.

Johnny Stuart, former pitcher for the St. Louis Cardinals, has been appointed to the coaching staff of Marshall college.

There is a rumor that Miller Huggins will make an effort to get Willie Kamm away from the White Sox in a trade next winter.

John "Hick" Meyers, outfielder and captain of the Morris Harvey college baseball team, has been signed by the St. Louis Cardinals.

There are now six players in the major leagues wearing specs, more than has ever been the case in the history of baseball.

Jack Leroy, pitcher for Charlotte in the South Atlantic league, is a skillful violinist and performs with an orchestra in the winter.

Two University of Alabama stars—Manter C. Haynes, shortstop, and Emil Barnes, outfielder—have been signed by the Washington club.

Chester Falk, southpaw pitcher, who three years ago was considered a fine prospect, has been sent to the Buffalo International league team.

Gehrig was the leading home-run hitter of the Eastern league in 1924, and Lazzeri made 69 home runs with Salt Lake City the following year.

Many of the most famous batsmen in baseball annals broke into the big leagues as pitchers. Babe Ruth and Tris Speaker are included in the list.

The flagpole sitting business has reached the limit with both the Cubs and the Pirates scrapping to see who perches on the National league's pennant pine.

"Moose" Clabough, who established a home-run reputation a few years ago in Texas, has been the leading hitter of the Piedmont league all this season.

The Cleveland outfield problem caused by the loss of Speaker has been settled for the present at least with Jameson, Jacobson and Summa acting as regulars.

Tom Hess, old-time New Orleans pitcher and batting star, once hit a home run to the top of the fence at Nashville, Tenn., and the ball struck between two pailings.

The Johnstown (Penn.) baseball club of the Middle Atlantic league operates an 18-passenger motor bus for transporting the team to the different cities of the circuit.

### Rainbow's End

Way back in the nineties the farmer folk who drove into town to see the circus parade used to wish they could ride behind something that didn't kick up its heels at the sight of elephants and lions. And now that they've got their wish and ride behind an engine that wouldn't know an elephant from a field mouse, lo and behold, the circus parades are being abolished.—Toronto Star.

### Will Pick Miss America Today

Atlantic City, Sept. 9 (AP).—Five of the nation's fairest daughters started today with visions of becoming Miss America of 1927, but before they were tonight the fabled dreams of all but one are to be shattered.

The fifteen hopefuls were selected in preliminary competition, three from each of the geographical sections of the country, and will meet in the final tonight.

One step nearer the coveted title of Miss America was taken last night by Miss Virginia, Claire Howard, who as Miss Tulsa was voted the most beautiful girl in evening gown in addition to winning a place in the final. Second place was won by Miss Lot Delander as Miss Illinois, while third place also went to Illinois in the person of Miss Anne Howe as Miss Hammond.

### TAKES SECOND FLIGHT ON 102ND BIRTHDAY.

Boston, Sept. 9 (AP).—Long distance flights hold no terrors for Mrs. Almatia Bennett of Chicopee Falls, who entered in earnest today upon her 102nd year after celebrating her birthday last night with a dinner and dance at a local hotel.

She had an engagement to fly to Old Orchard, Maine, with Charles W. Bradley of Rochester, N. H., a mere youth of 99. It was Bradley's second venture into the air but Mrs. Bennett made her first flight on her ninety-fifth birthday and last year went up again.

"Afraid to fly?" she said. "Why I love it."

Captain Harry M. Jones, Portland, Me., aviator, who took her up when she became a centenarian, again had the role.

Last night Mrs. Bennett was feted at a dinner attended by representatives of the city and state and friends. Among the latter was Frederick P. Bellamy of New York, whose father, the late Rev. Rufus K. Bellamy of Chicopee, married Mrs. Bennett more than 50 years ago.

The aged woman struggled bravely to her feet when the orchestra struck up a modern fox trot, but was clearly out of her element. The musicians, sensing the situation, quickly turned to a waltz and Mrs. Bennett successfully negotiated it and several encores with a younger member of her party.

### Drew on Imagination for Spirited Ballad?

Alfred Tennyson in his poem, "The Revenge: A Ballad of the Fleet," indicates that Sir Richard Grenville, commanding the Revenge when the English fleet of sixteen ships encountered fifty-three Spanish men of war at the Azores, declined to withdraw when Lord Thomas Howard, the fleet commander, signaled the ships to stand out to sea. The poet says Grenville remained to fight the whole Spanish fleet because he had 90 men ill on shore and would not leave them behind to be tortured.

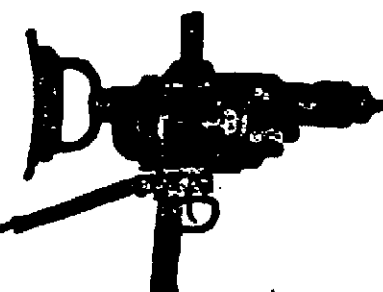

Historians, however, believe that Grenville misunderstood the signal to withdraw. Undaunted by the terrific odds, Grenville tried to break the Spanish line. For 15 hours the Revenge, with 150 men, battled against 5,000 on board 15 Spanish ships. Some of the Spanish ships could not get into the melee because they would have fired into their own ranks. Finally Grenville knew he was beaten and he wanted to sink the Revenge, but his men induced him to surrender. He had been so seriously wounded in the fighting that he died a few days later on board a Spanish ship. The Spaniards put a crew of their own on the Revenge and a short time later the ship sank in a storm, carrying down with her the foreign crew.—Kansas City Times.

### OPEN SWITCH LEADS TO FATAL WRECK IN INDIANA

This remarkable photo graphically reveals what happens when two fast-flying engines meet. Three were killed and many injured at Princeton, Ind., when southern passenger train sped into an open switch and crashed into a heavily loaded coal train. This mass of steel wreckage was once two locomotives, their tenders, a mail car and a baggage car.

### Austrian Fowls Lack

#### Proper Neck Covering

A peculiar breed of fowls called Naked Neck has come to this country from Austria, where it is said to have originated. The name comes from the fact that the fowls are destitute of feathers from within an inch or two back of the head down the entire length of the neck and on to the shoulders. This peculiarity of plumage is very marked, and the neck and shoulders have an unnatural appearance. They are not attractive; in fact, they are very unattractive, and the peculiar sensation to the hand when grasping the naked portion of the neck is very unpleasant. The skin of the neck is smooth, and, when exposed to the sun during the summer months, turns red and has a raw appearance, as if the blood were gathered beneath and close to the skin. They are very hardy; are but seldom seen, and have been bred in Austria only as novelties.

### SURPRISE PURSE FOR FATHER BIALDYGA

The Rev. Ignatius Bialdyga, pastor of the Immaculate Conception Church, Delaware avenue, who is visiting abroad, will soon return to this city. Father Bialdyga went to Poland to visit his parents, whom he had not seen for over fifteen years.

Desiring to give their pastor a hearty welcome upon his return home, the parishioners are planning to give him a surprise in the presentation of a substantial purse. The various societies of the church, many individuals and the numerous friends of Father Bialdyga are generously contributing towards this surprise purse. Those who have not contributed and desire to do so are kindly requested to forward their donations directly to the Rev. Francis Jablonski, acting pastor.

While in Europe Father Bialdyga visited many countries but especially Poland and his parishioners expect to hear many interesting things from him about Poland.

### LAST NIGHT on the RADIO

Much better than Wednesday, but nothing like equal to Tuesday, radio reception Thursday night was not bad except for the fading of WGY and WJZ. WGY also had a squeal. A station at Charlotte, N. C., using 309 meters, was heard very clearly, most of the Chicago stations were heard. WBAL, WSAI, WLW, WSM and WJR were among the best DX stations and WPG ranged over 15 numbers. KMOX was heard for the first in a long time and WGN was put out by a squeal. There were many squeals. It was not a night for sharp tuning.

### Postmaster Examination.

The United States Civil Service Commission has announced an examination to be held soon in this city for the position of fourth class postmaster at Allgerville, N. Y. Applications will close October 5.

### Dance at Stone Ridge.

The usual Friday night dance will occur at Stone Ridge Grange Hall tonight. Maisenholder's orchestra will furnish the music.

### Of "Past and Present"

I hope it will be a rather useful kind of book. It goes rather in a fiery strain about the present condition of men in general, and the strange pass they are coming to; and I calculate it may awaken here and there a slumbering blockhead to rub his eyes and consider what he is about in God's creation—a thing highly desirable at present.—Carlyle, in a letter to his mother.

### How to Remove Putty

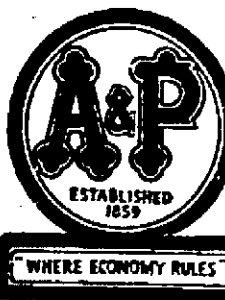

Objectionable marks on ground glass, when glazing a window frame, are made by the oil in putty, and are very difficult to remove. The best and simplest way to prevent them is to rub soap on the edges of the glass before the putty is applied, so that the film will keep all stains from the glass.

## Financial and Commercial

New York, Sept. 9 (AP).—Higher money rates and unfavorable trade news induced sufficient selling in today's stock market to turn the general course of prices reactionary, despite the resilient efforts of pools to keep prices headed upward. Call money was marked up to four per cent, the highest rate in more than a month, coincident with the calling of about \$20,000,000 in bank loans.

U. S. Steel common, in which a powerful pool is reported to be operating, was marked up to a new record high at 15 1/2, on reports that the August tonnage statement, due tomorrow, would show a moderate increase in unfilled orders instead of the decrease expected a few weeks ago. Steel quickly sold off 2 points in the wave of liquidation which followed the raising of the call money rate.

Oils changed hands in rather large blocks at advancing prices despite the pessimistic trade outlook pointed out by Walter C. Teague, president of the Standard Oil Company of New Jersey, in his return from Europe. Bullish activity was most pronounced, however, in such specialties as Continental Insurance, International Telephone, United Fruit and Mackay Companies, which sold 4 to 6 points above yesterday's final quotations.

In view of the fact that stock prices have been rising almost steadily since August 12, the reaction today was generally expected as a necessary corrective of a weakened technical position. Although the activity of pools had accounted for a number of the new high records established by individual stocks during the past week, commission houses also report an increased public participation.

Unfavorable traffic and earnings reports accelerated the selling of the railroad shares, with Atchafalpa, Erie common, Texas and Pacific and Norfolk and Western all yielding a point or more below yesterday's final quotations.

Gulf State Steel and Murray Body sold at their lowest prices of the year.

Quotations given by Parker McElroy & Co., members N. Y. Stock Exchange, 120 Broadway, New York city, branch office, 260 Fair street, Kingston, N. Y. Phone 286.

A picnic will be held by the Mannerchor next Sunday, September 11, at Maple Hill Inn, Rosendale Road.

## Oysters R. Ripe.

"Oysters R. Ripe" signs are beginning to appear, replacing the dust covered ones reading "New Maple Sugar."

## D. A. R. Will Attend.

Wiltwyck Chapter, D. A. R., has accepted the invitation to attend the sesquicentennial celebration here Saturday.

## Leap Year

Leap year comes every four years, in years divisible by four without a remainder, such as 1912, 1916, 1920. The exceptions are the last years of centuries, such as 1800 and 1900; these are not leap years unless they are divisible by 400 without remainder. For example, 2000 and 2400 will be leap years. The next leap year will be 1928; the next interval of eight years between leap years will be from 2096 to 2104.

It was announced by Ernest B. Cozens, graduate manager of the Pennsylvania team, which is here for the preliminary training. The game will be part of the memorial service to "Andy" Smith, who, for several years, was head coach of the California team.

## New Cadillac At Sutliff, Inc.

Show Rooms on Albany Avenue at Broadway—Features of Latest Product of Cadillac Division of General Motors.

Through the courtesy of Sutliff, Inc., the new Cadillac car is now on exhibit at their show rooms on Albany avenue at Broadway where Alexander D. Ferguson, president of the Ferguson Cadillac LaSalle, Inc., local Cadillac agency, now has on display a seven-passenger sedan. This showing will be continued until September 18 and the public is invited to see the latest product of the Cadillac Division of the General Motors. Mr. Ferguson, who has offices in the Governor Clinton Hotel is very much elated over the new model both from a standpoint of car and price.

The new Cadillac cars, custom built, have a wheel base of 140 inches and factory representatives assert that a speed of 50 miles an hour can be comfortably maintained over any roads due to the low hung design accomplished by underslung rear springs, heavy firmly braced frame and scientific distribution of weight.

Combined in the new Cadillac car, which in appearance is a copy of the LaSalle lines, there are to be found many new features. Among them are an adjustable front driver's seat which permits the back to be adjusted a full three inches for to care for the shortest driver. By a simple regulator at the top of the seat back the seat is projected forward or backward. The tool compartment is eliminated under the seats. Tools are carried in compartments set in the left running board apron and the covering of this compartment with rubber serves as an apron guard on entering or leaving the car. The compartment to the right contains the battery box.

The interior is fitted out in a most complete manner. All vanity and smoking article cases are provided and every detail has been attended to even to a cigarette lighter in the vanity case. The step and tonneau lights operate with the opening of the door. To carry out the foreign lines which are everywhere in evidence the instruments on the instrument board have been scattered instead of grouped. The gas tank has a cover designed to give a pleasing an effect as is the front view.

The motor still is the eight cylinder V type 90 degree motor but has been increased in size to give 341 cubic inches instead of 314. The front compartment has two-foot operated ventilators and an electric switch locks the car in such a manner that it is impossible to wire around the switch and operate the car.

Instead of the pressure system the new Cadillac is provided with a vacuum gasoline system.

The fenders have been widened 2 1/2

inches and an additional cross member has been added near the center of the frame which is the largest and deepest frame ever put into a Cadillac car.

The stop light and tail light have a unique arrangement. A light being placed on either side to give balance to the car's appearance from the rear. The new Cadillac cars were custom jobs and the one shown at present is a seven-passenger model. The rear seat which has ample room for three persons may be converted into a comfortable two-passenger seat by dropping a disappearing arm from the back of the seat, separating the rear seat into two spacious seats.

In the present showing at the Sutliff, Inc., show rooms are shown in addition to the new seven-passenger Cadillac a two-passenger convertible coupe with special equipment and a LaSalle victoria or four-passenger coupe.

## Hearings Here on Autobus Lines

S. C. Ward, assistant counsel of the New York State Public Service Commission held hearings Thursday afternoon at the court room in the court house, this city, on petitions affecting autobus lines in Ulster county. The applications were:

Franklin A. Tigar—Petition to operate a bus between Kingston and East Kingston petition to extend route in the hamlet of East Kingston.

Case 4305—James Acker: Petition to operate a bus line from East Kingston to Kingston.

Case 788 (2nd, Dist.): Frank Ferraro: Petition to operate a bus line between Saugerties and Kingston. Petition for extension of route in the town of Saugerties and in the town of Ulster.

The applicants and opponents were heard and decisions will be made later by the Commission.

Robert G. Groves represented Tigar, Francis Murphy represented Acker, and Andrew J. Cook of Van Etten & Cook represented Ferraro.

TRUCK DRIVERS IN NEW YORK CONTINUE STRIKE  
New York, Sept. 9 (AP).—Freight piled up in railroad and steamship terminals here today while striking union truck drivers and chauffeurs and the Merchants' Trucking Bureau were in a deadlock over higher wages, shorter hours and overtime pay.

Although two of the leading railroad lines reported they were moving their freight under slight handicaps, the Long Island Railroad declared an embargo on one East River pier and re-routed shipments to relieve congestion.

## VAN DEUSEN HOUSE

A cordial invitation is extended to Sesqui-centennial guests and visitors at the Van Deusen House, Old Hurley. This is one of the primitive Dutch stone houses built in 1723 by Jan Van Deusen, and after the burning of Kingston, 1777, was the temporary capitol of the state. The house is filled with early American furniture charmingly arranged. A fine Hepwhite side board in mahogany formerly in the DeWall Tavern on North Front street and other very attractive pieces. You will be welcome, and no obligations to purchase, and no sales solicited.

## Sale of Tickets For Kiwanis Show

First Report of Sale of Tickets for Kiwanis Kapers Forecasts Record Crowds—Features of Second Rehearsal.

A Kingston boy lost in New York city and his side-splitting experiences with the pedestrians that included everything from a Scotchman to a Chinaman, a sketch in which "Bill" Newkirk as a policeman and "Jim" Winters as a Jewish clothing merchant have a tilt and another called "Waste Words" in which Kiwanians, Lew Doty, Abe Jansen, Bill Kukek and Doc. Gates and Dick O'Brien, as deaf men, engage in a futile attempt to corner the wheat market or make a transatlantic flight of something of that kind, together with new chorus numbers, were the features of the second rehearsal for Kiwanis Kapers at the Masonic club room Thursday evening.

Charles L. Adams, as conductor, proved like the conjuror, that his bag of tricks, as far as making professionals out of amateurs is concerned, was by no means exhausted. With the help of the program committee roles were assigned to a number of juvenile and adult entertainers, known and unknown to Kingstonians, and the promise is that on September 19, 20 and 21, at the Broadway Theatre that will be a show that will tax the managerial ability of Harry Lazarus.

At the noontide luncheon at the Governor Clinton on Thursday, the first report on the sale of tickets resulted in an explosion of enthusiasm.

It reveals the fact that while the sale of tickets was supposed to be held up for a late whistling campaign, an unexpected number had already been disposed of and that the Kiwanis Club of neighboring communities were planning to attend in goodly numbers. It also revealed the fact that as the roll was being called one Kiwanian counted the money he had in his pockets and found twenty-seven dollars, and he reported, as his name was called, that he had sold twenty-seven tickets.

There was no skepticism manifested, of course. The tickets may be exchanged at any time at the box office of the Broadway Theatre for reserved seats. Every seat for all three performances will be reserved and the patrons of the show are urged to make their reservations at once. Tickets may be procured from any Kiwanian or members of the cast who are assisting them.

## Legion Club Gets Underway

First Meeting Thursday Night  
Mayor Dempsey and Thomas Coughlin Addressed Those Present  
Other Speakers Unable to Be Present.

The American Legion Luncheon Club held its first meeting Thursday night in the hall of the Legion Memorial Building at 7 o'clock. After partaking of a pleasing menu prepared by Lester Wolf, George Potter, president of the club, set forth the reasons for organizing the club and the ideals for which it is to stand.

Mr. Potter said the organization was formed for the purpose of furthering welfare work in the city and promoting worthy undertakings for the benefit of the community. After carefully outlining his views on the subject, he introduced Mayor Edgar J. Dempsey, a guest of the club.

The mayor expressed his hearty approval of the club and thanked the American Legion for its interest in promoting the work of citizenship in the high school. He said he believed the American Legion was free from religious prejudices which frequently crop up in various organizations and had no thought of mixing in politics.

President Potter then explained that Samuel Aaronowitz, past state commander, who had promised to speak, was unavoidably detained with an important engagement. William H. Grogan, attorney for the Water Supply Board, who was also scheduled to speak, could not be on hand. Mr. Potter then called on former Judge Thomas F. Coughlin, speaker of the evening.

Mr. Coughlin gave full credit for the forming of the club to President Potter and commended the idea and purpose as worthy of high esteem.

Mr. Coughlin gave a brief history of the American Legion since 1919. He pointed out the growth and rapid strides the Legion has made in the last few years.

The war of ten years ago is fading from the public mind, he said. Because we are World War veterans the public is not going to pat us on the back forever. If the American Legion is to exist it must do things worthy of note or it will perish from the minds of the people. War and its effects are being forgotten and we can no longer rest on our laurels.

He pointed out that there is much to be done in time of peace for the betterment of public good, and that war veterans should do their part. He urged that Mr. Potter's idea of community service be undertaken with a will and whatever the Legion undertakes should receive the hearty cooperation of all its members.

In his opinion, he said, the most outstanding accomplishment of the Legion for public good was the reception of new citizens at the high school and welcoming them as countrymen who are held in higher

## DREAMS AND FACTS

The idea that fortune is calling us from somewhere else is often about as sound reasoning as the belief that a pot of gold may be found at the end of the rainbow. The real gold is all around us here in Kingston, but the only way we can get it is to work for it. Wanderers will find that they will have to work just as hard or harder somewhere else.

This city needs men and women who will work, and they will be paid for their work here as well as elsewhere. There is no place beyond the horizon, as some of our young folks seem to think, where fame and fortune are waiting to receive them in open arms.

Ability and industry are necessary before we can be successful anywhere. Why not apply them to our work in the home town instead of just dreaming of better conditions in some vague distant place? The rewards are here.

esteem by the United States than foreigners who could become citizens and do not take advantage of their opportunity. He lauded Commander Heiselman as originator of the plan of making new citizens feel that they are needed and welcome to our country as citizens.

President Potter then remarked that because he had formed the club did not mean that it was to be a one-man affair. Members were asked for their views on different subjects and laws governing the club.

It was thought that the name, "American Legion Luncheon Club," sounded too "high hat" and it was voted to change the name to American Legion Service Club. The article was revised to read that members may pay dues of \$1.75 monthly or \$5 quarterly in advance so that everyone who is a paid up member of the Legion could join without financial embarrassment.

Mr. Potter said it was the object of the club to make members' dues as low as possible and not to promote an exclusive affair. He pointed out that through a large membership

only, could the service club hope for success.

### Snakes Used Medicinally

A French doctor says that in many houses in his district dried adders are preserved, and when any member of the family catches a cold or suffers from chills and fever, he is given a dose of liquid prepared from pieces of the dried snake boiled in water for a quarter of an hour. This opens the pores and causes the patient to perspire.

Pieces of dried snakes are also sold by chemists to drive away, among other things, the rosy rash that accompanies measles.

### Lot's Wife Modernized

"Lot's wife had nothing much on Mrs. Dave Kirk," a Missouri newspaper tells its readers. "Mrs. Lot looked back, and turned into a pillar of salt. Mrs. Kirk looked back and turned into a telephone pole," says Cupper's Magazine.

## This remarkable varnish stain excels in 3 ways...

Drop in and let us prove it to your satisfaction...

**The Color Test:** Fifty experts chose Mirrolac as the line of colors that reproduced most closely their conception of the true hardwood tones.

**The Application Test:** Under an actual brushing test you will find that Mirrolac flows freely, and shows no laps or brush marks.

**The Durability Test:** Apply varnish stain to a metal panel. Bend it over a straight edge. Then straighten and examine it. An inefficient varnish stain will be badly cracked. The surface of Devco Mirrolac will remain an unbroken film. This bending test proves the elasticity and durability of the product.

Do you wonder that we guarantee it to give satisfaction when applied according to directions.

(By The Associated Press.)

New York—Painted on Rene Fonck's biplane, which he hopes to fly to Paris, is the Latin equivalent of "It floats, but does not sink."

Buenos Aires—Chess players may have the pleasure of sitting at home, of knowing at once what two grand masters are doing and of figuring out their next moves. The Alekhine-Capablanca world's championship match beginning September 14, is to be broadcast.

Albany, N. Y.—New York state is observing the 150th anniversary of the founding of its government as the "sesquicentennial." Somebody omitted an "n" on the official souvenir medal of the occasion.

New York—The most efficient of four forms of sport for a golf course will be settled tomorrow at the Queens Valley club to the satisfaction of everybody except followers of the four sports. Lou Gehrig, pretender to the throne of Babe Ruth; Eddie Driggs, golfer; Paul W. Crouch, archer, and Fred C. Berger and Jack Schwinn, surf and fly casters, using their favorite implements. They will show which can go from first tee to 18th hole in the least number of strokes, shots, hits, or whatever you call them.

Ham P. Young, blacksmith on week days and preacher on Sundays, has evidence there's a gold mine in Elkton, Md., a gretna green. Going there to marry a young couple, he was approached by an elderly gentleman who was smoking a cigar and chewing tobacco at the same time. As Mr. Young explains it: "He displayed a handful of marriage license stubs, there must have been a hundred of them, and said with a braggadocio air, 'What do you think of that for a week's work?' He said he got an average of \$10 a marriage."

New York—King Cotton is getting to be a croesus, on paper at least. When prices jumped on publication of the government crop report it was argued that the total value of the crop had appreciated \$183,010,000 in a month.

**Cars Quickly Cleaned**  
After passing through most tunnels, trains are usually dirtier than they were when they entered, but exactly the reverse is true of a passage over one of the railroad lines in France. After going through it, says Popular Mechanics Magazine, every car is brushed and vacuum-cleaned, saving the time and labor required for scrubbing with hand implements. The tunnel is an archway which is lined with brushes and vacuum-cleaning attachments. As the train is pulled slowly along, the polishing and cleaning apparatus functions automatically and, in doing so, reaches almost every part of the exterior of the cars.

**HURRY-UP MESSENGER BOY LEADS AN EXCITING LIFE**

Does All Kinds of Quicker Errands including That of Trailing Husbands.

Kansas City, Mo.—According to Harry, the hurry-up messenger, life's never dull for long at a stretch in his line.

"Ready of variety, you know," he explains, "and ain't that what makes the world go 'round?"

"Why, only this morning a Jane called up and wanted a boy to get a leech for her. She answered the door herself when I brought it out, and I wish you could of seen her left blinker, blacker'n that dog George Brown brought in last night. Her old man had hit her, she told me. She didn't seem to mind it much, though. The leech would fix it up in no time, she said."

"Then I got a call from way out South, almost to Waldo. It was a rush call, so I didn't waste no time gettin' out there. And you know what for? To get an old alley cat off the roof of a big three-story house."

"At least it looked like an alley cat to me. But the woman called it a 'prize Persian'."

Once started, Harry's reminiscences flowed on uninterruptedly. Harry didn't ask for applause. He merely wanted an audience.

"And a week before last a woman paid me 50 cents an hour to stand down by the bus station at Eleventh and Wyandotte to watch the outgoing busses to see if her husband went out. You can guess the rest. Suppose he told her he was goin' out of town on business or something. She wanted to find out if he was what you call trustworthy."

"Some of the calls are a lot of fun, though. When a guy calls up for a boy to go over to a chop suey joint and get some to bring out to a party. Lotta times they'll tell you to stick around a while, and the more wise cracks you can make the better they like it. That's the time you usually get the fattest tips, too."

"And, say! Maybe you think we don't get the low-down on some of these love affairs around town. Why, I say to myself just the other day, 'Tux a regular little coupe's first lieutenant'."

"And I wish I had a penny for every dress I'd hauled out to women goin' to bridge parties and tea parties and the like. And for all the dogs I've taken to be what you call immunized!"

"But even at that the game ain't what it used to be in the good old days before Uncle Sam went on the water wagon. Them was the days when the guys was free with their jack."

**Engineers and Oilers Are Heroes on Liner**

New York.—Heroism of a junior engineer officer and four oilers on the North German Lloyd liner Columbus averted a serious accident in mid-ocean, imperiling the 2,397 lives on board.

In some mysterious manner—possibly by striking a submarine derelict—the Columbus when 1,000 miles out of port, lost a propeller. Released of the heavy load, the engine raced until it blew off a cylinder head.

Antone Weber, fourth engineer, and four oilers crawled through the engine room, filled with steam and while the others held his legs the engineer found and closed the steam valve.

The passengers took up a purse for the squad, but Weber refused to take any reward, consenting merely to be trustee of a fund of \$850 with which to buy watches for the oilers.

**Sentenced to Eight Years in Alabama Flogging**

Oneonta, Ala.—A prison sentence of eight to ten years was meted out to Eugene Doss, first of seven men to be tried in the Blount county Circuit court on charges of flogging Jeff Caloway, Oneonta farm youth, several weeks ago. Doss was found guilty of kidnapping. Doss, according to testimony of John Hughes and Oliver Tidwell, was a member of the group of men that went to the Tarrant City klavern of the Ku-Klux Klan, donned klan robes and hoods and flogged Caloway. Both Hughes and Tidwell admitted they also were members of the whipping party.

**Lumber for 47 Houses Required for Frigate**

Washington.—Rebuilding of the Constitution, one of the earliest and most famous vessels of the American navy, now in dry dock at the Boston navy yard awaiting restoration, will require enough lumber to build 47 six-room houses.

Requisitions just approved by the bureau of construction and repair of the Navy department call for approximately 710,000 board feet of lumber. In addition to the lumber a considerable quantity of live oak submerged in the Pensacola navy yard for the last 40 years will be used in rebuilding the frigate.

The oak was stored for preservation in the fresh water of Commodore pond in 1878 to be used in future ship building.
